What We Do

We're designed to offer specialized culinary training, foster self-confidence, and facilitate meaningful employment for these students. By addressing this gap, we aim to challenge and transform societal norms, drive meaningful change, and promote genuine acceptance and inclusion.

Our Aim, Vision & Mission

To inculcate acceptance for special individuals and abandoned/abused individuals in society who otherwise are bullied/stereotyped/expelled/not considered fit for employment. Our Mission and Vision is to create an inclusive environment where students can develop valuable skills, gain meaningful employment, and challenge societal stereotypes.

CULINARY STARS PROGRAMME

The Culinary Stars Program offers a comprehensive six-eighteen months of training course that includes: Life Skill development, Physical & Mental Health Development (cognitive and behavioural therapies), Food Serving, Cleaning & Sanitation, Self-Confidence Boosting & Motivation, Cutting & Cooking, Food Handling & Storage, Accounts/Financial Handling, Workplace Safety, First Aid, Quality Customer Service

UNIQUENESS

Born out of the success of Opportunity Café, addressing the critical gap, Opportunity Skills Academy is distinct in its commitment to offering specialized, hands-on culinary training for individuals with Special Abilities. Ensuring precision and high professionalism, the training is delivered by Special Educators, Caregivers, Counsellors, and Industry Specialists. Unlike conventional programs, our academy is deeply committed to addressing the profound underrepresentation of these individuals in the workforce. We not only provide industry-relevant skills but also integrate comprehensive support systems that foster self-confidence and professional growth.

ADDITIONAL resources

Medical Support

- Routine Health Check-ups
- Medicine Support
- Online Doctor Consultations
- Individual Medical Files
- Counselling (Grouped as well as individual)

Partnerships and Collaborations

We will collaborate with local restaurants, culinary schools, and NGOs to enhance the training experience.

Infrastructure and Resources

The academy is equipped with state-of-the-art kitchens, classrooms, and online platforms to provide a comprehensive learning experience. Study materials, uniforms, and equipment will be provided to all students.
